Non performing loans (NPL)	% of housing mortgage loans	% of commercial mortgage loans
% NPL	0.01%	0.00%
of which loans, where a default is considered to have occurred pursuant to Article 178 of Regulation (EU) No. 575/2013	0.01%	0.00%
Loans, which are more that 90 days past due	0.00%	0.00%

The assets balance for the calculation of the covered bond coverage, overcollateralization and liquidity requirements is presented in accordance with the applicable accounting standards and IFRS 9. The primary assets participate in the covered bond coverage with their outstanding principal, but with amount not higher than the one set in art. 129, para 1 of Regulation (EC) № 575/2013.

Risk profile

- Interest rate risk - the alignment between the euribor based bond coupon and the floating interest rate on 99.6% of the loans in the cover pool leads to insignificant interest rate risk in the instrument. No hedging is applied.
- Currency risk - no currency risk in view of the ful alignment between the issue currency and 100% of the assets in the cover pool. No hedging is applied.
- Credit risk - the granular structure of the cover pool with 12,191 loan deals, the relatively low weighted average LTV of the portfolio of 57.8%, and the exclusion of NPEs from the cover register minimize the level of credit risk in the cover pool.
- Liquidity risk - The bank maintains liquidity buffer, composed of liquid assets, that exceeds the highest net liquidity outflow of the covered bonds in the next 180 days.

Statutory requirements

- In the reporitng period the cover pool composition has been reviewed and updated, in accordance with the eligibility requirements of the Covered bonds Act (CBA) and the covered bonds terms and conditions. The covered bonds meet the coverage, overcollateralization and liquidity requirements.
- All assets from the cover pool are segregated from the bank assets and written in cover pool register, in compliance with art. 49 from the CBA.
- The reported coverage and overcollateralization levels, as well as the assets included in the liquidity buffer, are in compliance with the requirements of art. 26, 27 и 28 of the CBA.
- As of the above reporting date there are no circumstances that lead or may lead to extention of the covered bonds maturity according to art 34 of the CBA.
